

Superior Cold Patch

All-Weather Patching Material

DESCRIPTION

It's no longer necessary to let your asphalt or concrete paved areas become a hazard and a serious maintenance problem. With Superior Cold Patch you can keep your shipping and loading areas, parking lots, drives and walks in safe repair all year around. Instant repairs can be done by unskilled labor in any kind of weather—hot, freezing, wet, or dry. This all-weather patching compound can be applied directly from the container as is—simply tamp Superior Cold Patch into place with either the back of a shovel or a hand tamper and the repair is complete and immediately ready for heavy traffic.

FEATURES

- Will not stick to shovel, tamper, or vehicle wheels
- Makes concrete and asphalt repair work a one-man operation
- Use in any weather, indoors or outdoors
- Repairs instantly and permanently
- Withstands heaviest loads
- Ready for traffic immediately
- No special equipment needed—just a shovel will do the job
- Prevents accidents
- Product covers 5 sq. ft. at 2" thick

HOW TO USE

Shovel into chuck holes straight from the container and tamp down.
